WHERE TOMORROW'S VICTORIES BEGIN

Significant TASS Issues in TIE-Jackson

- **Issue:** Implementation of TAMIS-R
- **Discussion:** TAMIS-R is a powerful Internet based ammunition management tool that allows the units to directly input forecasts into a system for approval and overall management by TIE-Jackson. It is infeasible for the TIE to manually input ammunition forecasts for TASS units into TAMIS-R due to the cumulative number of units in Regions B,C, and D.
- **Recommendation / Impact / Status:** TIE-Jackson will require TASS BNs ammunition managers to submit all forecasts and other transactions directly into TAMIS-R commencing 1 May 01

Significant TASS Issues in TIE-Jackson (cont.)

- **Issue:** Proponent School Title XIs
- **Discussion:** Approved TDA established new UIC for Proponent School Title XIs. DCSED directed TIE-Jackson to drop these soldiers NLT 10 Jan 01 in order for HQ TRADOC to pick them up on SIDPERS. TIE-Jackson accomplished this and is still holding records for final disposition. Additionally, all open requisitions for proponent schools for Regions B, C and D have been reconciled and reported to DCSED and DA.
- **Recommendation / Impact / Status:** DCSED needs to issue orders to finalize this action

TIE-Jackson RCE Consolidation and Transition to New TDA Update / Issues

- Complete UIC adjustments
- Complete proponent handover to DCSED
 - Personnel files
 - Property
- TDA change from E-6s to E-7s

Success Stories in TIE- Jackson

- 100% accreditation across TIE area of responsibility
- 4/108th CM TASS Battalion received recognition from the Chemical proponent as the best overall chemical TASS battalion
- All senior leadership at TIE-Jackson on board

TIE-Jackson Director's Top Three Issues

- Maintain 100% accreditation with required resources
- Rating scheme
- Communication / Connectivity
